It is called Craigslist. If you are not aware of what it is, it is simple. It is an online classified site. There are a vast number of categories and a list of the most common cities. You can place an ad for free most of the time. You simply pick your city and category and type in your ad. You can place pictures in the ad and edit any of it at any time. The site has been around forever but was basically ignored for a long while. There were some that used the site left and right, but it was a bit of a cult following. These days it is easily the most popular site of its type. The site itself has a no frills type of look. The first page you see is nothing but text listing after text listing, but the usefulness of the site is immeasurable. So, let's get started so you too can make money with Craigslist!.
