CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 54 pages. Dimensions: 11.0in. x 8.5in. x 0.1in. HYPERSPHERE, . . . A JOURNEY AT THE SPEED OF GEOMETRY, is the explorations in the new realm of Hypergeometric Mechanics. In this work are the aspects of theory, experiment, and results of three new machines, and one The Hypersphere! These machines are the extreme of mechanics in quantum and relativistic environments, that allow macroscopic objects to as well experience entanglement, tunneling and even reverse time! The primary experiments are over, the rocket is obsolete for extreme distances. It is not so much where something is, but when! Far distance in space means to traverse such with the reversal of time! Though Alpha Centauri is 4. 3 lights years distant in space, with the Hyperspheres capabilities of tunneling and entanglement, it is but 6 minutes away, but 6 minutes ago in time! In the Non-inertial state, The Hypersphere is at 370, 000 times the speed of light, in reverse time! Welcome to the future, and the past, and the present! This item ships from La Vergne,TN. Paperback.
