Sterling, 2007 9781402747168, 2007. Soft cover. Book Condition: New. NEW large paperback. 128 pages. Illustrated throughout in colour. A fun activity book, suitable for children or space-loving adults, with projects to make, amongst other things, an anti-gravity spaceship, a Martian and even a parallel universe. The projects are mainly based on mathematical shapes like dodecahedrons and icosahedrons so would be good for maths classes too.
